## BIOGRAPHY

### LILLY PALMER

Lilly Palmer there's no better way to initiate this bond, than with sending her audience on a musical journey with her DJ sets. It's as simple as that, electronic music just has been her passion ever since.

Based in Zurich, and spending more and more time with people of this great and flourishing underground scene, her devotion for music got stronger and in 2015 she finally decided diving into the business herself. With powerful, impulsive tech and melancholic deep sounds, intriguing melodies and electrifying basslines, Lilly creates an unique and energetic vibe sending her audience straight to outta space on a trip where return tickets are not needed anymore.

As authenticity and focus are two of her most appreciated attributes it's needless to say, that she's already full force ahead working in the studio to create her own sounds. There would be no real journey with Lilly, if she didn't present her emotions with her own music.
